Department of Computer Applications

COMMUNE

October 2025

Reflection of Head of The Department

It is with great pleasure that the Department of Computer Applications presents the October 2025 issue of our newsletter, "COMMUNE", for the academic session 2024–25.

Our students showcased their creativity, enthusiasm, and collaborative spirit through the SAAMPAN (Wall Magazine) programme. This year also marked a significant milestone with the launch of our departmental hackathon, CAtalyst 2025, on 26 August 2025. The initiative was designed to inspire and prepare students to actively participate in the Smart India Hackathon (SIH) and other innovation-driven platforms.
As the Head of the Department, I extend my heartfelt gratitude to the Coordinator of this issue, as well as to all faculty members, non-teaching staff, and students, for their dedication and collective effort in bringing this edition to life. Their hard work truly reflects the collaborative spirit and excellence that define our department.
